ID :	Name:
------	-------

***Free space and creativity***

**This project will be marked out of 10 based on:**

<b>Inserting picture/s</b>	<b>2 marks</b>
<b>Inserting table/s</b>	<b>2 marks</b>
<b>Inserting special characters</b>	<b>2 marks</b>
<b>Using background and matching colors</b>	<b>2 marks</b>
<b>Clear resume and meaningful with overall</b>	<b>1 marks</b>
<b>Indentation and readable code</b>	<b>1 mark</b>

**C**reate a new html file that you call: myresume.html  
Try to use what you have learned and seen in the class and in lab to write your own resume (freestyle).

In this document there must be:

- At least one picture (yours ... may be :)),
- an email address using mailto,
- some external links,
- some lists (nested, ordered, unordered),
- break lines and horizontal rules,
- tables ,
- you might offer some form ,
- frames.

Write your HTML code in formatted way using indentation to make it readable and understandable

Now, to improve your document, try to introduce a background color by using Cascading style Sheet (CSS).
